

Boxtop simplifies your IT, so you can focus on what matters.

Designed specifically to meet the needs of small to midsize law firms, Boxtop now offers more options. Your firm can choose either Boxtop Pro or Boxtop Premium to move your IT to the cloud.

Boxtop Pro offers your firm everything you need to move your IT to the cloud, including security, business continuity, malware protection, and much more. If you love Boxtop Pro, but require a bit more, then Boxtop Premium is your solution. Boxtop Premium offers additional data protection and security features to better serve firms that have higher levels of security and compliance requirements.
