## **FRANCIS NUNEZ, DESKTOP TECHNICIAN**

*Francis, one of our esteemed desktop technicians, has been with Tabush Group for three years. He is a lifesaver with technology and comes to the rescue when computers misbehave.*

**What's been your favorite binge-watching experience this month?** I binge watched the latest season of *Masterchef* and every cooking show on Netflix. I started watching a Japanese reality show called *Terrace House* that helped me live vicariously through those people.

**Sounds like just what we need right now. What have you stocked up on?** Baking supplies, I've been baking and cooking a lot. I want to get better but it's hard to get certain ingredients in a lockdown.

**Yeast is one hot commodity! What do you wish you had stocked up on?** Gummy bears and some candy, LOL, but seriously, healthier snacks. I have a lot of vegetables but it's a pain to make a batch of steamed veggies when you want a quick snack.

**What's the first thing you'll do when this is over?** See a Broadway show, eat at a fancy restaurant, and travel to another country.

**Phew, sounds like one busy social calendar. What movie title best describes your stay-at-home experience?** I would have to go with one of my favorite Jim Carrey movies, *The Truman Show*, everything feels like it's alright while I'm at home but I have to constantly remind myself that this isn't normal.

**Sounds like some of our Zoom calls! What's something that would surprise people to know about you?** Cooking gives me anxiety. I love cooking but every time I'm anxious whether it will taste good.

**You sound like a pro to us! Favorite guilty pleasure:** I watch a lot of Korean dramas. The last one I binged was *Itaewon Class* and I'm looking for more!

**Favorite dining-out food you miss the most?** I miss Korean food and Ramen! I miss Ramen and Go Go Curry.

**This can be your next cooking endeavor!**
