**FOR IMMEDIATE RELEASE**

## **Tabush Group to Present on Law Firm Cybersecurity and Cloud at Upcoming Legal Industry Conferences**

**New York, NY, September 6, 2016** – [Tabush Group](http://www.tabush.com), a leading cloud computing, technology solutions, and IT services company, announced today that it will participate in two upcoming legal industry conferences, presenting a seminar titled “Cybersecurity and Cloud: What You Need to Know to Protect Your Law Firm and Clients.”

Darragh Fitzpatrick, Partner & Executive Vice-President at Tabush, is scheduled to present on Friday, September 9, 2016 at 9:30 AM (ET) at the Association of Legal Administrators (ALA) Regional Legal Management Conference in Boston, MA.

Mr. Fitzpatrick is also scheduled to present on Tuesday, September 27 and Wednesday, September 28, 2016 at the Workers’ Injury Law & Advocacy Group (WILG) Annual Convention in Carefree, AZ.

The seminar will help law firms understand why they’re a target, how they’re being targeted, and steps they should take to protect themselves and their clients. The media covers data breaches at large enterprises, but small and midsize firms are now a much more prominent target. The results of a security breach are the same for an SMB as an enterprise: loss of data, reputational damage, loss of productivity, etc.

Mr. Fitzpatrick has over 20 years of experience in the field of information technology. He joined Tabush Group in 2005, originally as a consultant and then network architect. In 2009, he became a partner and took on the role of EVP. Having been involved in approximately \$20 million of IT implementations and projects, Mr. Fitzpatrick has designed and managed the build-out of countless firms’ IT infrastructures and has successfully put in place systems to maintain the security, robustness, and scalability of these infrastructures.

### **About Tabush Group**

Tabush Group is a leading provider of virtual workspace, private cloud, and managed IT services that specializes in technology solutions for small to midsize businesses in the fields of law, real estate, construction, investment management, and professional services. Our mission is to help organizations succeed through our passion and experience. Building upon that experience, Tabush has developed a new all-in-one cloud solution called Boxtop™, which delivers all of a company’s IT needs as a simple, secure, and scalable service, allowing small business owners to focus on growing their companies. Boxtop™ includes virtual desktops, cloud infrastructure, storage, backups, security, and unlimited support. Founded in 2000, Tabush is a privately held company headquartered in New York City, with data centers located in New York, Ohio, and Washington State. Additional information about Tabush and its services can be found at [www.tabush.com](http://www.tabush.com), and additional information about Boxtop™ can be found at [www.GoBoxtop.com](http://www.GoBoxtop.com).
