What's your go-to working from home snack?

Does wine count? My favorite snack is definitely wine.

Wine ALWAYS counts! What's been your favorite binge watching experience this month?

I'm a little behind, but I've finally had time to catch up on *The Marvelous Mrs. Maisel*. LOVE it! Next on my list is *Unorthodox*.

We loved *Unorthodox*, hope you do too!

What have you stocked up on?

See question 1....wine!

HAHA, we should've known! What do you wish you had stocked up on?

Clorox wipes. I've found everything else online or in stores, even if I have to wait an hour just to get into the store!

First thing you'll do when the quarantine is over?

I'm really looking forward to seeing my family and friends again. I miss my parents, sister, and niece SO much.

Movie title that describes your quarantine experience?

Animal House and *Toy Story* because my kids can get crazy and it looks like a toy store exploded in my house!

That explains the wine! Favorite guilty pleasure you're okay with sharing?

I love doing puzzles, but don't usually have the time to do them. Now I have plenty of time so I've already finished two 1,000 piece puzzles and just started on my third.

Favorite dining food you miss the most.

Sushi!

Thanks! You have us craving spicy tuna rolls!
