

# quarantine profiles

## **RUDENC [RUDY] BUNGURI, DESKTOP DIVISION LEAD**

*Rudy is the captain of Tabush Group's Desktop Division and has been with the company for over five years. He's known around the office (as well as the virtual office) for being kind, a pleasure to work with, and a true leader in his field.*

What's been your favorite quarantine snack?

Hazelnuts, almonds, and dates are my favorite snacks.

That sounds nut-astic. What's been your favorite binge-watching experience this month?

Binged watched *Better Call Saul* and *Episodes* this month.

*BCS*, the spin-off that did not disappoint.

First thing you'll do when quarantine is over that you can't do now?

Get together with friends and have some quality wine/cheese and talk, not virtually ☺

Anything non-virtual sounds amazing right now. What's something that would surprise people to know about you?

I trained/practiced for three months as a boat captain, right after my graduation.

What's your favorite guilty pleasure you're okay with sharing?

Playing Texas Hold'em Poker.

Ante up! What movie title best describes your stay-at-home experience?

*Castaway*

Have you kept a volleyball around the house?

Any unexpected revelations or discoveries while staying at home?

I surprised myself and my wife with my new skills in cooking. ☺ Most exciting was the guitar that I got and thanks to my great mentor, I'm advancing quite fast.

We might need a Zoom concert now.

Favorite dining food you miss the most?

I'm a seafood lover, so a platter of lobster, shrimp, and scallops would be my first choice there.

And now we're hungry. Thanks Rudy for all that you do!
